

Experiences with swissnex Singapore

Nico de Rooij

CSEM SA

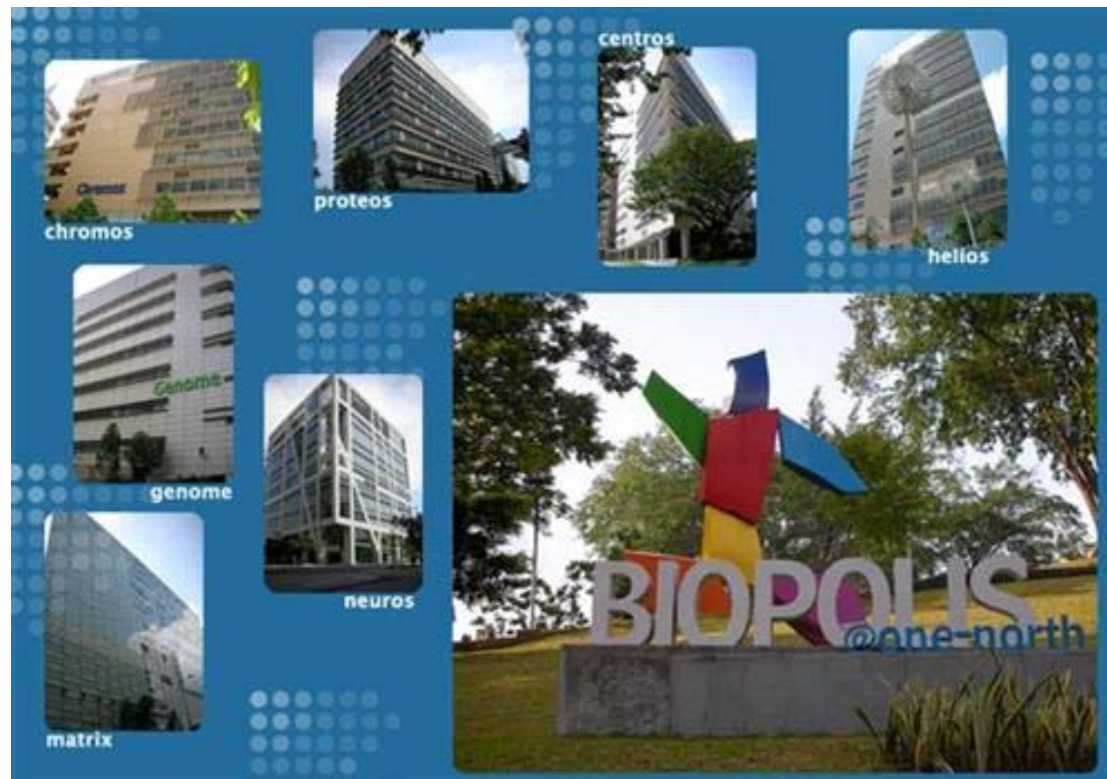

EPFL STI IMT

Singapore: Fusionopolis (Engineering Sciences)

1000 research staff

Singapore: Biopolis (Life Sciences)

2000 research staff

Events organized by swissnex Singapore

- Swiss-Singapore Workshop on Microsystems for Harsh Environment Applications (January 22 , 2007)
- Swiss-Singapore Workshop on Microsystems for Medical Technology Applications (May 21, 2008)
- Swiss- Singapore Workshop on Microfluidic Manufacturing and Laboratory Automation (October 22, 2009)
- Visit of Prof. Patrick Aebischer, President of the EPFL, visiting Singapore (October 20-22, 2009)

Some results

- MOU signed between A*STAR **SIMTech** and **CSEM SA** about a 3-year collaboration carrying out joint projects and researcher exchange in order to advance the development and manufacturing of Microfluidics Technology
- Attachment Program for PhD students at A*STAR Research Institutes under discussion

Acknowledgement

A great thank you to Dr. Suzanne Hraba-Renevey and the swissnex Singapore Team

Thank you for your attention!
